Essay Responses for ECON103011 for 2026 Wintr (2261) - Instructor Arsalan Ul Haque,Sheikh

Question ID: 28680

Identify or describe something(s) that the Professor does particularly well in making this a positive learning experience for you.

Responses (8 of 42)

Very responsive to questions.

He provide a very fluent communication with me when I have problems about online exam.

He has zoom calls for review before exams

Professor Arsalan did an exceptional job of teaching me about intro to macroeconomics through his lectures and allowing us to complete homework through Pearson. I thoroughly enjoyed the ability to effectively learn macroeconomics..

Despite this being an online course, Professor Arsalan encourages participation during synchronous exam review sessions, which helped me learn and ask questions in real time.

n/a

Explaining

The professor was really good at combining both asynchronous learning and Zoom meetings. Having Zoom review sessions were helpful, but it was not excessive which I liked. I did not feel like my time was ever being wasted and found the professor very thorough, clear and efficient.

Essay Responses for ECON103011 for 2026 Wintr (2261) - Instructor Arsalan Ul Haque,Sheikh

Question ID: 28681

Identify or describe some way(s) that the Professor could improve his/her teaching (and your learning.)

Responses (8 of 42)

N/A

He is very good.

Have more zoom calls for reviews

He did for the second exam, but for every exam he should release a long study guide of questions to complete that is optional, so we have the opportunity to study and learn more in preparation for our exams

Fewer mistakes while going through slides and more examples of topics we are covering would be helpful.

n/a

N/A

I thought the professor talked very slowly so I often had to watch his uploads in two times speed. It was harder for me to pay attention during the Zooms due to this slow rate of talking. I also think sometimes he made some mistakes during lectures that led to confusion, but he quickly remedied these mistakes.
